

COMPANY PROFILE

GENERAL CONTRACTING

 balazs.szeles@markez.hu

About Us

Established in 2003, our company builds on a legacy of experience gained long before our official founding. Even in our early years, we played a key role in major construction projects as a trusted general contractor, working alongside respected predecessors and reliable subcontractor partners.

Since 2011, we have been operating independently, delivering large-scale projects throughout Hungary. Our strength lies in a highly qualified in-house team and a carefully selected network of subcontractors, enabling us to meet the highest standards in quality, safety, and efficiency.

We approach every project with the same commitment: to understand our clients' unique needs, adapt to local conditions, and deliver outstanding results. With each completed assignment, we have expanded our expertise, strengthened our professional relationships, and proven our ability to take on increasingly complex challenges.

In a constantly evolving market, we remain dedicated to anticipating our clients' needs and exceeding expectations. Our mission is simple: to turn visions into reality — and to ensure every client becomes a long-term partner.
